23 JANUARY 2013

E-WEEK IS COMING!

E-Week is less than 11 days away!

Interested in helping out with FilmfEUS_t, participating in dodgeball or playing foosball? Go to bit.ly/mecheweek or come by Club Mech to sign up.

Boatracng tryouts are being held on **Friday January 25th 3-5pm**. If you can't make this time but would still like to participate, speak to Dan Kudokas.

Foosball tryouts are being held on **Tuesday January 29th at 4:30pm**. Sign up beforehand in Club Mech or speak to Mike Lakusta.

Tickets for E-Ball are for sale online this year, go to eball2013.bpt.me to purchase tickets.

If you want any other information about E-Week, speak to Jordan Balanko or Natasha Palmer.

GRAD INFORMATION

Are you planning on graduating this year? Be sure to check out the important deadlines and information below.

Grad Registration:

In order to graduate, you must register through the SSC. Registration is open right now and closes on **February 28th**. Also remember to email undergrad@mech.ubc.ca to have a Grad Check done to ensure you have all the required credits!

Grad Ceremony:

The graduation ceremony has been scheduled, it is on **May 28th at 1:30pm**. For more details and information about the ceremony refer to: www.graduation.ubc.ca

Iron Ring:

Forget to get your Iron Ring sized? Late applicants are being considered until **February 1st**, contact them directly for details at ironring@camp5.ca

The ceremony date has been scheduled, it is on **March 20th at the Queen Elizabeth Theatre**—time is still TBD.

Grad Photos:

Still need to get photos taken? **Evangelo's Photography** is still taking photos for the composite. Make an appointment by calling them at 604.731.8314 or 604.732.3023 or online at www.evangelosphotography.com

UPCOMING EVENTS

Thursday January 31st: Games Night

Club Mech is hosting another Games Night. Come by on Thursday evening to enjoy snacks and boardgames such as Settlers, Dominion, Carcassonne and more.

NEW NAVAL ARCHITECTURE PROGRAM

The University of British Columbia is pleased to announce that it is planning to establish a new Master of Engineering in Naval Architecture and Marine Engineering. The program is intended to commence in September 2013, and we are now inviting applicants to the program. The program is concerned with all aspects (design, construction, maintenance and operation) of ships and other structures in the marine environment. The program requires a minimum of 12 months for completion, and includes an intensive set of courses culminating in a capstone design project entailing the design of a vessel, as well as a 12-week internship with a company or other organization. The coming decade will see a major increase in shipbuilding projects in Canada, and these will need specialist engineers. UBC recognizes the importance of a highly skilled and educated workforce ready to meet the needs of this growing industry, and so has developed this new program in response to that need. For further information on the program, please see the attached brochure and visit the web-site: <http://name.engineering.ubc.ca>. The web-site provides all details on the program, and enables you to submit an application or submit an expression of interest in the program.
